Dear members of GDSC TKU,

I am pleased to announce that GDSC TKU(Google Developer Student Club TKU) and TKUAIIC(TKU Artificial Innovative Intelligence Club) are now operating as one. GDSC TKU and TKUAIIC have joined forces to provide better resources and a better learning environment for all members. The merger will create a large practice team of experienced staff which in turn creates endless possibilities when it comes to designing courses or carrying out activities, taking the club to the next milestone.

For us, it will always be about the club members. We assure you that the best and most diverse courses and activities will be brought out this coming year. Stay tuned!
